## Join the Clear Creek CSD Community Advisory Committee!

We are launching the Proposition 218 Rate Study to evaluate future rates and ensure our community's long-term needs are met.

We are inviting community members to participate in a Community Advisory Committee that will:

- Review of information presented during Prop 218 study
- Provide feedback and suggestions on possible water rate adjustments
- Help ensure the study reflects the needs and concerns of our community

Your voice matters! This is your chance to be directly involved in shaping decisions that affect every Clear Creek CSD customer. Committee members will meet periodically during the Prop 218 study process to review materials and share input with the District. Along with working together to recommend fair and sustainable solutions. Please contact the District Office if you're interested in serving!

## Grant Project Update:

The Backwash Pond project continues to move forward smoothly. The final concrete pour has been completed at the Water Treatment Plant Pond #2, marking an important milestone. Some additional work remains and will be completed as weather allows. Crews are working diligently through wet conditions and early mornings to keep the project progressing. We appreciate their hard work and look forward to seeing the final product.

## Important Notification Reminder:

To ensure you receive timely updates, especially during water service interruptions, we encourage all customers to sign up for alerts on our website and to follow our Facebook page. Please remember it is each customer's responsibility to keep their contact information current and to complete the "Sign Up for Alerts" process on our website. Because we are a small district with limited staff, we cannot guarantee that every notification will reach every customer, particularly during after-hour emergencies. Your help in keeping your information up to date allows us to serve you better.
